Distribution and Technical Support for China Market

As Chineway Pharmaceutical has been supplying high quality raw material to China pharmaceutical industry for more than ten years, we have a well-established customer base in China with connections of more than 1000 pharmaceutical manufacturers and R&D companies as well as a lot of experience in providing technical support on usage of various type of pharmaceutical raw materials.

We welcome oversea suppliers to contact us to cooperate in business development for the China market. We have a dedicated team of business development and technical support staff so that overseas suppliers can quickly penetrate into the highly potential China pharmaceutical industry. Suppliers utilize our distribution and technical support will not only reduce the time to market but also enjoy cost effectiveness as you need not to build a separate distribution system and technical support team. Please contact us.
